**AERONAUTICS :** *Page*

Aerodrome and Aircraft Lighting .. .. 337
Aerodynamics and Aeronautics .. .. 147
Aviation's Rubber Stamp .. .. .. 5
Behaviour of Rubber Springs under Variable Loading Conditions .. .. .. .. 388
The Behaviour of Laminated Synthetic Pressed Resins in Creep .. .. .. .. 331
Contribution to the Statics of Circular Rings for Pressure-Cabins .. .. .. .. 285
Corrosion of Aircraft Metals .. .. .. 14
The Efficiency of Light A.A. Guns .. .. 129
The Elastic Wing .. .. .. .. 218
An Experimental Determination of the Lift of an Oscillating Airfoil .. .. .. .. 22
Fatigue Strength of Different Types of Riveting 77
Further Development in Fighter Design .. 292
Icing-up Danger in Air Navigation .. .. 221
The Influence of Mach Number upon the Airscrew Efficiency .. .. .. .. 335
Investigation of the Influence of Bending and Buckling on Stress Measurements in Monocoque Structures accessible from Outside only .. .. .. .. .. .. 260
Measurement of the Period of Natural Vibration of an Airscrew Blade .. .. .. 264
Measurements on Detonation in Duchene Apparatus .. .. .. .. .. 61
Modern Steel and Reinforced Concrete Hangars .. .. .. .. .. 356
A New Radio Aid to Air Navigation .. .. 91
Plastics Applied to Airplane Structures .. 478
Range and Bomb Load of Aeroplanes .. 438
Selecting Special Motors .. .. .. 184
Stresses in Reinforcements of the Cut-Outs in Monocoque Structures .. .. .. 436
Torsionmeters for Aero Engines in Flight .. 131
Turbine for Engine Cooling .. .. .. 114
Zero-Thrust Indicator and Elevator Locking Device : Two New Aids to Flight-Measurements .. .. .. .. .. .. 106

**ELECTRICAL ENGINEERING :**

Air-Blast Breakers in Switzerland .. .. 173
Air-Blast Circuit Breaker with Paralleling Resistor .. .. .. .. .. 14
Application of Power Requirements to Main Roll Drives .. .. .. .. .. 295
Automatic Voltage Stabiliser .. .. .. 53
Baking Paint with Infra-Red Light .. .. 278
" Cerberus " Alarms and Signals .. .. 88
Developments in Electric Traction .. .. 2
Drying with Infra-Red Radiation .. .. 180
Electric Lighting in Mines .. .. .. 277
Electric Traction .. .. .. .. 233
Electric Welding under High Pressure of Air .. 321
Electrically Operated Dynamo-Meter .. 306
The " Electrogearf" a New Electro-Mechanical Vehicle Drive .. .. .. .. 440

*Page*

Elimination of Belt Static .. .. .. 79
Engineering Features of the 230 KV Boulder Chino Transmission Line of the Southern California Edison Co., Ltd. .. .. 170
Fine Adjustment for Elevators by Step Switch 175
Fully Enclosed A.C. Motors for Higher Output 186
Gas-Blast Protector Tubes .. .. .. 53
Germicidal Lamps—A New Tool for Industry and a Contribution to Health .. .. 134
High Tension Current Transformer Design : Sprecher and Schuh .. .. .. 303
Light Motor Coach Ce 2/4 No. 787 of the Berner Alpenbahn Gesellschaft .. .. 195
Low Pressure Electric Boiler Brown Boveri System .. .. .. .. .. 190
Measurement of Photo Recording of Magnetostriction by the Kornezky Method .. 401
Minimum Insulation Level for Lighting Protection of Medium Voltage Lines .. .. 228
A New Automatic Welder for Carbon Welding 163
The New Contact Converter of the Siemens-Schuckert Werke .. .. .. .. 465
The New Electric Speed Regulator Oerlikon-Escher-Wyss .. .. .. .. .. 425
New Type of Electric Furnace .. .. 138
The Oerlikon Automatic Plug Switch Type St, for Use as Automatic Switch in L.T. Installations .. .. .. .. .. 16
Oilless Insulation of High Tension Apparatus, especially of Pressure-gas Insulated Instrument Transformers .. .. .. .. 225
Peak Result in D.C. Generator Construction 177
Piezo-Electric Measuring Sets .. .. 69
Practical Results with Ultra-Violet Radiation 137
Progress in the Design of Short-Circuit Limiting Reactors .. .. .. .. .. 300
The Progressively Acting Fuse .. .. 340
A Project for a System of Charging Stations for Electric Vehicles in Vienna .. .. 316
Radiant Heat—Full Fledged Industrial Tool 99
Radiation from High-Pressure Mercury Lamps 342
Radio Observation of the Ionosphere during an Eclipse .. .. .. .. .. 470
Rare Gas Filled, Pumpless Mercury Vapour Rectifier, Type Secheron .. .. .. 350
Some Methods of Preventing the Penetration of Moisture into Transformer Windings .. 302
Some New Type of Magnetic Apparatus .. 317
Spire-Type Single-Circuit Steel Towers Supporting 110,000 Volt Transmission Line .. 139
Spot Welder with Magnetic Storage .. .. 159
Train Protection Device with Automatic Axle Counter .. .. .. .. .. 120
Unipolar Generator for Low Voltages and High Currents .. .. .. .. 18
The Use of Fluorescent Materials for Lighting Purposes .. .. .. .. .. 361
